(a) Below saturation, linear scale
p99 latency (µs)
Offered load (kops/s)
(b) Whole sweep, log scale. One variant per panel.
C++ system
C++ jemalloc
Rust system
Rust jemalloc
p99 latency (µs)
Offered load (kops/s)
(c) Achieved throughput. The dotted line matches the offered load.
Achieved throughput (kops/s)
Offered load (kops/s)
